

Oban Distillers Edition

1996

43%

This is clearly Oban. Time in Montilla fino casks hasn't diminished the fresh fruitiness.

The orange zestiness has also been retained. Like the 'Kinchie, what the finish has done is allow the palate to thicken out and show what seems like a more mature personality. A new heavy floral note emerges. All in all, there is greater concentration and ripeness with an added ginger note. Another edition that improves on the original.
