

Wood's High Mountain Tenderfoot (Batch 29)

45%

Despite the orange-amber color, green, stalky corn husk and bramble notes dominate this youngster, with secondary flavors of fruitwood smoke and warm cereal. The flavors are beginning to evolve nicely on the palate, as the fresh malt meets lots of dark chocolate before a savory snap of green stick returns on the finish.

Malted barley, malted rye, and malted wheat.

—Vol. 25, #3
