

Sea Fog American Whiskey

45%

This whiskey portrays its coastal origin with a lovely sea-air quality that vies for attention with brown sugar, beeswax, and delicate smoke notes. Gentle peatiness weaves through the cocoa-tinged honeyed malt on the palate, culminating in a smoldering finish, where the mouthwatering saltiness seals the deal. Nicely integrated and well balanced, with fine pot still character. A single malt of pale and peated malts, aged 7 years in bourbon barrels.

—Vol. 26, #1
