

**Glenfarclas 27 year old
1981 Vintage (Cask
#128)**

53.4%

When I toured Glenfarclas in May 2008, George Grant told me that, while it is usually not their policy to stray from aging their whisky in sherry and bourbon oak casks, they have done some experimenting. One of these experiments, aged entirely in a port cask, has finally been bottled. The nice thing about Glenfarclas is that it is a rich spirit and can stand up to a good dose of port wine (or sherry for that matter). The port notes are lush, with ripe fruit (plum, red grape skin, caramelized apricot, prune) and dates complementing the whisky's malty, maple syrup foundation. The 27 years also impart a good dose of polished oak for balance.

Not as complex as other Glenfarclas whiskies of this age, but this is certainly a solid, enjoyable change of pace for Glenfarclas. (A Park Avenue Liquor exclusive.)
